TERMS OF SALE

1. A 10% Buyer's Premium is added to all invoices.
2. This sale is an unrestricted Public Auction and Mail Bid Sale. All bids are to be entered by lot as numbered in this catalogue. Mail bidders should feel free to bid as much as they wish knowing that we will buy the lot, if possible, below their bid. Thousands of bidders to KATEN SALES can attest to this fact.
3. We make no other charges except the actual cost of mailing, insurance/registration. On books we charge 50¢ per lot (a book dealer now charges $2.00 per lot). When there is more than one book in a lot we use discretion, but never overcharge you. Minimum charge on books is $l.00.
4. Bidders unknown to us must send a deposit of 25% of their bids. References are useful for future bidding.
5. We reserve the right to reject any bid from any bidder when we deem a bid not made in good faith. Most dealers want dollar bids only - but we will accept bids with 50¢. Minimum acceptable bid is $3.00 with increments of 50¢.
6. Auction sales are not approval sales. By submitting your bids you agree to the terms of sale herewith set forth. No lot may be returned without written permission and request must be made within 5 days after receipt of material. No lot may be returned by floor bidders.
7. All books are as described. The actual title in a foreign language is given- the cataloguer may interpret the title which would be in parenthesis. All books are at least in fine condition unless otherwise mentioned. Books are hard bound unless CaC (Card Covers), pb (pamphlet binding), or pc (paper covers) is mentioned.
8. We acknowledge the possibility of errors or typographical mistakes, and any errors on our part will be corrected. Please be careful in placing your bids, as we cannot be responsible for your errors.
9. Auction Sales are for U.S. cash funds. Payment must be made immediately upon receipt of material or upon notification. We reserve the right to demand payment before delivery.
10. Lots delivered in the State of Maryland are subject to a 5% Sales Tax and will be added to the invoice.

PLEASE NOTE: Unfortunately the 2nd Session was not listed in the catalogue.

2nd session starts on page 20, Lot 860.

Frank and Laurese Katen wish to thank our many customers, long-time and new ones for the response to our second sale of our numismatic library.

Many nice remarks by phone and when paying their bills "Never knew so many Numismatic Reprints existed", "A nice touch of class to include several elongated cents with submission of the invoice", "Such a long list of affordible texts, I went overboard in my purchases", etc., etc. Simply wonderful! Keep these remarks coming.

Now you have the 3rd part of our library. It consists of almost two thousand lots of nothing but **PERIODICALS**. We have included a 6-page list of appoximately 550 titles. This list has been copywrited ©, but we will send you a copy printed on 60 pound gray opaque vellum, unfolded, in a heavy-weight sheet protector for $2.00.

Should you order the above list or the book "Funny Money" please send your remittance separately.

Again, we sincerely thank you.

78TH PUBLIC AND MAIL BID SALE

FIRST SESSION FRIDAY, MARCH 24, 1995

7:00 P.M. PROMPTLY

THE FRANK and LAURESE KATEN NUMISMATIC LIBRARY

PART 3 – PERIODICALS

We wish to thank our customers and scores of new bidders for making our first sale of the Katen Library a fine success. There were 42 requests for paddles, two dealers and a collector representing 7 who could not be present for floor bidding. We also received 405 mail bids. We trust that the second sale #77, Nov. 18-19, 1994, will be received with the same enthusiasm.

This sale, #78, selling Periodicals poses many problems. The majority will be 8½ x 11" or smaller. Many are oversized and will be designated at the end of the listing with this symbol <>.

Also, much of the material is old and it is impossible to give an estimate, hence we will skip estimates and let our customers establish the winning price, unless we have definate data on previous sales. Please observe our request of a minimum bid of $3.00. Our study shows it now costs a little over that amount to publish.

Thank you again - Frank and Laurese Katen.

859A. For the hardy soul who may want the entire series he must exceed the cumulative total of Lots 829 to 859 inclusive. An auction teller will total the lots. -

PLEASE NOTE: The name of this Series, Museum Notes has been changed to AMERICAN JOURNAL OF NUMISMATICS, Second Series. If interested, you will find the first three already printed, in this catalogue on Page 6, Lots, 44, 45 and 46.

As you probably know, The letter C and N are the most used in our hobby - C for Coins and N for Numismatics. There will be 70 Periodicals listed for this letter compared to 102 for the letter C in the beginning of this catalogue. Nonsence you say? But what's wrong with a little levity? Well, let's get going.

NUMISMATIST, The: If I were asked to name the most important periodical, I would say The Numismatist. Now in its 103rd year with the use of the three Indexes you would be able to resolve many questions and in the process you would learn something you did not know before. A set is being offered for $15,000.00, but it contains the original first 6 volumes in one, which is very rare. This set has a reprint volume which would serve the purpose. (FJK)

FUNNY MONEY

In *Funny Money*, Paul Hellyer pulls no punches. He claims that in all probability there has never been a recession or a depression that was either necessary or inevitable. They have all been children of a tragic divorce between the real and financial economies following the industrial revolution 200 years ago.

On the one side we have a real economy of farmers and fishermen, factories and workers and on the other we have a monetary and banking system which, "stripped of all the snake oil and holy water that has been poured on it over the years, is nothing more than the perpetuation of a scam invented by the English goldsmiths more than three hundred years ago" — a scam that has turned out to be the most profitable in the history of the world.

Central banks were established to protect the interests of the people but they have been of little use. No longer "a weak reed for a nation to lean on in time of trouble," as described by President Hoover in 1933, the Fed is today more like an iron rod, wielded by bankers in the interest of bankers, inducing recessions and with scant concern for the best interests of the U.S. and its people. The Fed is a captive of monetarist economics which, though perfect in theory, has been wicked and evil in practice.

Paul Hellyer was Canada's youngest Member of Parliament when he was first elected in 1949 and the youngest cabinet minister appointed to Louis S. St. Laurent's government eight years later. After a stint in opposition he subsequently held senior posts in the governments of Lester B. Pearson and Pierre E. Trudeau, who defeated him for the Liberal Party leadership in 1968. The following year, after achieving the rank of senior minister, which was later designated Deputy Prime Minister, Hellyer resigned from the Trudeau cabinet on a question of principle related to housing.

Although Hellyer is best known for the unification of the Canadian Armed Forces and for his 1968 chairmanship of the Task Force on Housing and Urban Development, he has maintained a life-long interest in macro-economics. This led him to form Action Canada, a populist movement dedicated to the concepts of full employment and zero inflation with an emphasis on quality-of-life issues. Through the years, as a journalist and political commentator he has continued to fight for economic reforms and has written several books on the subject. In 1982 he rejoined the Liberal Party in order to continue the fight for economic reform.

He lives in Toronto with his wife, Ellen.
